

Air Scrubber

BY AERUS

WITH CERTIFIED SPACE TECHNOLOGY™

- ACT 9960054 – Air Scrubber Advanced
- ACT 9960055 – Air Scrubber Advanced
- ACT 9960022 – External Mini Split Mount
- ACT 00709 – Mobile Unit
- ACT 00746 – Pure & Clean
- ACT 00747 – Pure & Clean
- ACT AP500 – Wall Plug In

ACTIVEPURE TECHNOLOGY DEMONSTRATES A **99.98% SURFACE KILL RATE** OF SARS-COV-2 VIRUS WITHIN 7 HOURS

ActivePure Technology is scientifically proven to reduce SARS-CoV-2 novel coronavirus on surfaces. ActivePure Technology was tested on live SARS-CoV-2 virus, not proxy or surrogate strains

The ActivePure Technology disinfection system is the safest, fastest and most powerful surface and air-purification technology available that minimizes recontamination and cross contamination in real time without the use of chemicals or ozone.

HOW DOES IT WORK?

Units with ActivePure Technology pull free oxygen and water molecules in the air through ActivePure's patented honeycomb matrix. The technology creates powerful oxidizers, known as ActivePure Molecules, that are then released back into the room, where they seek and destroy DNA and RNA viruses including SARS-CoV-2 (novel coronavirus), Swine Flu (H1N1), Avian Bird Flu (H5N8), Hepatitis A (HAV) and MS2 bacteriophage, regardless of their size, on surfaces and in the air.

SAFE. PROVEN. EFFECTIVE. CERTIFIED

- Continuous disinfection 24/7/365
- Affordable
- Works quickly and quietly
- Safe to use in occupied spaces
- Works in real time
